DETAILED ACTION

Information Disclosure Statement

1. The Information Disclosure Statement, filed December 4, 2003, is acknowledged and has been considered. Note that U.S. Patent No. 6,560,524 to Lin et al. was mis-numbered on the PTO-1449, and has been corrected.

Allowable Subject Matter

2. Claims 1-32 are allowed.

3. The following is an examiner's statement of reasons for allowance: the prior art neither anticipates nor makes obvious a method or system for selectively providing rear-wheel steering for a vehicle backing up a trailer comprising the steps as claimed, including calculating equilibrium and pseudo-equilibrium hitch angles between the vehicle and trailer as recited, determining whether a specific predetermined relationship exists between a measure hitch angle, the equilibrium hitch angle and the pseudo-equilibrium hitch angle, and only providing rear wheel steering if the predetermined relationship exists. The above recitation, combined with the rest of the structure in the independent claim, clearly defines over the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kendall (U.S. Patent No. 5,247,442), Hernandez (U.S. Patent No. 5,097,250), Breen (U.S. Patent No. 5,001,639), Kimbrough et al. (U.S. Patent No. 5,579,228), and Klein et al. (U.S. Patent No. 6,640,170 B2) disclose methods and systems for controlling vehicle wheel steering when joined to a trailer.
